

HADEEL SOWAN

Computer Engineer

hadeelraid333@gmail.com | 0586650600 | Jerusalem, Jabal Al-Mukabber

SUMMARY

Computer Engineer with two years of experience as a Research and Teaching Assistant. Experienced in teaching programming languages, OOP, web development, and problem-solving while supporting students in their academic development. Skilled in software development, Artificial Intelligence, and computer vision, with practical experience in machine learning and image processing projects. Strong analytical, communication, and teamwork skills, with the ability to learn new technologies quickly and contribute effectively in dynamic work environments.

WORK EXPERIENCE

Research and Teaching Assistant, Al-Quds University

Jan 2023 – Feb 2025

- Conducted practical labs and provided technical support in Java, OOP, Python, Linux, Networks, Operating Systems, AI, Web, and Android Development.
- Guided students in programming, debugging, problem-solving, and software development.
- Prepared lab materials, assignments, and technical demonstrations.
- Delivered career-oriented workshops and participated in AI & Computer Vision research, including plant disease classification and image processing.

EDUCATION

Master's Degree in Software Engineering (Al-Qudse University)

2026–2022

- Advanced coursework in Computer Architecture, Cyber-Physical Systems Security, Operating Systems, Parallel Programming, Software Engineering and Management, Artificial Intelligence and Deep Learning, and Internet of Things (IoT). Master's thesis focused on investigating the importance of image enhancement and segmentation of plant disease images before deep learning-based classification, with the aim of improving the quality of input images and classification performance.

Bachelor's Degree in Computer Engineering (Birzeit University)

2016 – 2021

- Programming Fundamentals, C, Python & Java, Object-Oriented Programming (OOP), Data Structures & Algorithms, Computer Architecture & Assembly, Digital Logic & Systems, Electrical Engineering Fundamentals, Computer Networks, Database Systems, and Practical & Laboratory Skills.

PROFESSIONAL TRAINING

Software Engineering Intern – Asal Technologies

Jul 2020– Sep 2020

- 241 Training Hours
- Completed practical training in Software Engineering and development practices.
- Gained hands-on experience in programming, problem-solving, and teamwork within a technical environment.

Web Design Training Program

Jul 2019 – Dec 2019

- 96 Training Hours
- Completed practical training in web page design and development fundamentals, including HTML, CSS, and website structure.
- Gained hands-on experience in creating and designing web pages, uploading files to a server, and organizing project files using basic web development concepts.

KEY SKILLS

- Fast learner and adaptable.
- Strong communication skills.
- Research, critical thinking, and problem-solving abilities.
- Leadership and teamwork skills.
- Time Management
- Commitment and responsibility.
